|          |                                                                                                                                                                                                                                                                       |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| METHOD 2 | METHOD 2: The shipper has obtained the VGM by determining and documenting the weight of all packages (including dunnage, securing material and packing materials) and adding the tare mass of the container. All weighing equipment used is certified and calibrated. |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Item     | Description                             | Pkg Type | No. Units | Gross Weight (KG) |
|----------|-----------------------------------------|----------|-----------|-------------------|
| 1        | Wooden Furniture - Office Chairs        | Drum     | 19        | 362.4             |
| 2        | Wooden Furniture - Office Chairs        | Drum     | 11        | 401.0             |
| 3        | Paper Products - Packaging Cartons      | Crate    | 16        | 2,218.5           |
| 4        | Consumer Electronics - Wireless Earbuds | Roll     | 16        | 4,216.2           |
| SUBTOTAL | All Cargo Packages                      |          |           | 7,198.1           |

| VGM CALCULATION | COMPONENT                                                  | WEIGHT (KG) |
|-----------------|------------------------------------------------------------|-------------|
| Step 1          | Sum of all cargo package weights                           | 7,198.1 kg  |
| Step 2          | Packing materials (pallets, strapping, dunnage, void-fill) | 230.5 kg    |
| Step 3          | Container tare weight (45'HC, ISO L5G0)                    | 4,800.0 kg  |
| = VGM           | VERIFIED GROSS MASS (Step 1 + Step 2 + Step 3)             | 12,228.6 kg |

|                                                                                                                                 |                                                                                                                        |
